Working Group on Children and Armed Conflict

Conclusions on children and armed conflict in the Central African Republic

1. At its 20th meeting, on 24 February 2009, the Working Group on Children and Armed Conflict examined a report of the Secretary-General on children and armed conflict in the Central African Republic (S/2009/66), which was introduced by the Special Representative of the Secretary-General for Children and Armed Conflict. The Permanent Representative of the Central African Republic to the United Nations also addressed the Working Group.
2. The main elements of the exchange of views among the members of the Working Group are summarized below.
3. The members of the Working Group welcomed the submission of the report of the Secretary-General in accordance with Security Council resolution 1612 (2005), and the analysis and recommendations contained therein met with a generally favourable response.
4. Grave concern was expressed about the persistence of widespread violations and serious abuses, in particular killing, maiming and rape and other sexual violence, committed against children in the context of armed conflict in the Central African Republic.
5. Grave concern was also expressed regarding the continuation of the recruitment and use of children by all non-State parties to the conflict, the use of children by self-defence militias and the attacks against children by criminal groups known as “Zaraguinas”.
6. The members of the Working Group welcomed the steps taken by the Government of the Central African Republic to foster public safety and put an end to the illegal recruitment and use of children, in particular the political dialogue held with rebel groups, the reform of security institutions and the establishment of the Disarmament, Demobilization and Reintegration Steering Committee.
7. The members of the Working Group encouraged the Government of the Central African Republic to strengthen further its policy on child protection by adopting a legal and institutional framework to protect the rights of children in situations of armed conflict, addressing impunity for perpetrators of all crimes committed against children, improving its national birth registration system and

reinforcing the relevant capacities of the security forces, the army and the Presidential Guard.

8. The members of the Working Group noted that the absence of development, poor access to basic services, lack of economic and social opportunities, stigmatization of certain groups, whether ethnic, religious or social, and, in some cases, pressure from peers and local authorities were factors that increased the risk of children being recruited and used by armed groups, in particular self-defence militias.

9. The members of the Working Group also encouraged the Government of the Central African Republic to raise public awareness of the need to avoid the use of children in armed conflict and to protect them from violence, in accordance with applicable international law, including international humanitarian law and international human rights law.

10. The members of the Working Group welcomed the referral of the Central African Republic to the Peacebuilding Commission, the ongoing efforts of the Peacebuilding Commission regarding the Central African Republic and the allocation of resources by the Peacebuilding Fund to programmes for the separation of children from armed groups and their reintegration into communities.

11. The Working Group stressed the importance of support from the international community to the Government of the Central African Republic in its efforts to protect children affected by armed conflict.

12. The Permanent Representative of the Central African Republic:

(a) Underlined the commitment of the Government of the Central African Republic to fully cooperate with the Working Group and the Special Representative of the Secretary-General and to implement the recommendations of the Secretary-General and the conclusions of the Working Group;

(b) While recognizing the need for further efforts to reduce violations against children in the Central African Republic, underscored the lack of resources of his Government to combat such violations and, in that regard, reiterated the request of his Government for support from the international community and donors;

(c) Explained that motivations such as social recognition, lack of access to basic services and material benefits were some of the factors that led children to join self-defence militias and groups on a voluntary basis and, in that regard, underlined the need to address all aspects of the recruitment and use of children in his country;

(d) Expressed that the lack of birth registration processes in some rural areas of the Central African Republic was a critical concern, as it exacerbated the challenges related to the age of child soldiers;

(e) Requested the support of the international community in the implementation of the disarmament, demobilization and reintegration programmes and, subsequent to the meeting, took note of the Principles and Guidelines on Children Associated with Armed Forces or Armed Groups (Paris Principles).

13. Further to the meeting and subject to and consistent with applicable international law and relevant Security Council resolutions, including Security

Council resolution 1612 (2005),¹ the Working Group agreed to the following direct action.

Public statements issued by the Chairman of the Working Group

14. The Working Group agreed to address messages to all the parties to the armed conflict in the Central African Republic mentioned in the report of the Secretary-General, in particular the Armée populaire pour la restauration de la République et de la démocratie (APRD); the Union des forces démocratiques pour le rassemblement (UFDR); the Front démocratique du peuple centrafricain; the Mouvement des libérateurs centrafricains pour la justice; and the Forces pour l'unification de la République centrafricaine, through public statements by its Chairman on behalf of the Working Group:

(a) *Calling* their attention to the fact that the Security Council has received the report of the Secretary-General on children and armed conflict in the Central African Republic;

(b) *Expressing* its strong condemnation of the recruitment and use of children by all armed groups, including self-defence militias directly or indirectly supported by governmental authorities, in violation of applicable international law;

(c) *Expressing also* deep concern about the high number of violations and abuses committed against children by all parties to the conflict, including the killing and maiming of civilians, rape and other sexual violence, abduction and attacks against schools and hospitals in the northern part of the country;

(d) *Expressing further* also deep concern about the frequent displacement of populations taking place in the Central African Republic as a result of fighting and threats against the population by all parties to the conflict, which increases the vulnerability of children to becoming victims of violations and abuses such as recruitment and use, killing and maiming, rape and other sexual violence and abductions;

(e) *Condemning* attacks on United Nations and humanitarian personnel, including robbery, intimidation and other acts of violence that have led to the obstruction of humanitarian access;

(f) *Taking note* of the identification and anticipated release of children by APRD and UFDR, following concerted advocacy by the United Nations Children's Fund, the Office for the Coordination of Humanitarian Affairs and humanitarian organizations, and the visit in May 2008 of the Special Representative of the Secretary-General for Children and Armed Conflict to the region, and encouraging them to continue the process of identifying and releasing all children present in their ranks;

(g) *Urging* all parties:

(i) To comply fully with international humanitarian law by, inter alia, protecting the civilian population, especially children, and recognizing and maintaining the civilian status, neutrality and safety of schools, hospitals, religious institutions, refugee camps and settlements of internally displaced persons, including their personnel;

¹ A similar formulation will appear at the beginning of every letter issued by the Chairman.

(ii) To refrain from any new child recruitment and fulfil without any further delay their commitments for the protection of children, to end the recruitment and use of children and release all children still present within their ranks in a manner that allows effective confirmation by the United Nations country-level task force on monitoring and reporting, and to develop as soon as possible a time-bound action plan in line with Security Council resolutions 1539 (2004) and 1612 (2005);

(iii) To put an end to indiscriminate attacks on and the burning of villages, which have resulted in the killing and maiming of civilians, including children;

(iv) To take immediate and specific measures to put an end to and prevent the perpetration of rape and other sexual and gender-based violence and to take measures so that perpetrators are brought to justice;

(v) To release immediately all abducted children, ensure their return to their families and communities and take all necessary measures to put an end to and prevent abduction;

(vi) To allow, as a matter of priority, full, unimpeded and secure access for humanitarian assistance and relevant international and national child protection actors;

(h) *Emphasizing* that the full implementation of an action plan in line with Security Council resolutions 1539 (2004) and 1612 (2005), confirmed by the task force on monitoring and reporting, is an important step for a party to conflict to take in order to be de-listed from the annexes of the report of the Secretary General on children and armed conflict;

(i) *Emphasizing also* that the Working Group will closely monitor, through the reports of the Secretary-General on children and armed conflict, compliance with Security Council resolution 1612 (2005) by all parties in situations of armed conflict listed in the annexes to the reports of the Secretary-General on children and armed conflict until there is complete release of children associated with them and full implementation of action plans;

(j) *Urging* all parties to sustain the momentum created by the inclusive political dialogue and the spirit of compromise and cooperation, and demanding that all parties that have not done so cease violence immediately.

15. The Working Group also agreed to address messages to the head of the Lord's Resistance Army (LRA) delegation in Nairobi through the Office of the Special Envoy of the Secretary-General for the Lord's Resistance Army-affected areas, on public statements by its Chairman on behalf of the Working Group:

(a) *Recalling* its recent conclusions on children and armed conflict in Uganda (S/AC.51/2008/13) and all the requests to the LRA contained therein, as well as the provisions regarding children in the president statement of the Security Council contained in document S/PRST/2008/48;

(b) *Strongly condemning* the abduction and recruitment of children, sexual violence and the looting of villages by the LRA in the south-eastern region of Haut-Mbomou, in particular the attacks of February and March 2008 in the Obo area, and strongly urging the LRA to release all the abducted children immediately and unconditionally;

(c) *Recalling* the obligations of the LRA under the Agreement on Disarmament, Demobilization and Reintegration signed in February 2008 and noting specifically that the recruitment and use of children by armed groups is a violation of applicable international law;

(d) *Expressing* its dismay at and strongly condemning the continued recruitment and use of child soldiers and all other violations and abuses committed by the LRA, including the killing and maiming of children, rape and other sexual violence, abductions and forced displacement in recent months, in particular in the south-east of the Central African Republic, south Sudan and the Democratic Republic of the Congo.
